Winemaker Comments Nigel Nesci

Vintage Conditions: The growing season leading up to the 2017 vintage was challenging. A wet and cold Spring season impacted early shoot development, with mild summer conditions interrupted by rain events. A season of extreme, sometimes isolated, weather events resulted in some vineyards being hit by storm and hail.

With a cool start to the season and with good soil moisture profiles, vintage commencement was late, running 3 to 4 weeks behind past seasons. The cooler weather and delayed ripeness favoured good varietal fruit flavour development in the whites and strong varietal fruit flavour and good colour, across the main stream red varieties.
